Pumping happiness across the Globe

Tormac PUMPS

THE TOUGH ONE

Rugged construction coupled with optimal design parameters make the Bore Hole Submersible Pump a star performer.

SUBMERSIBLE PUMPS - **50Hz**

INDEX

TS SERIES - STAINLESS STEEL SUBMERSIBLE PUMPS

Construction, Applications & Features 3
Pumped Liquids, Pump Operating Limitations & Model Classification 5

GENERAL DATA

STAINLESS STEEL SUBMERSIBLE PUMPS > **TS** SERIES

Construction Tormac stainless steel submersible pumps are ingeniously designed and developed employing latest engineering softwares, high-tech machinery, tools and cutting edge of pumping technology to deliver the best possible hydraulic efficiency. The complete stainless steel construction not only prevents the pumps from corrosion but also exceptionally increases the life- span. The integrated and most modern quality assurance systems used at every stage of the production and flawless workmanship ensure sustained and consistent operation.

All these submersible pumps are multistage single suction centrifugal type, provided with integral check-valve and NEMA standard coupling. These pumps are available with fabricated impellers and diffusers made of AISI 304/316/904L and the shaft is made of AISI 304/431/904L. The integral check valve prevents back flow and reduces the risk of water hammer which paves the way for trouble free performance. The suction screen is designed with utmost care so as not to reduce the inflow of water and at the same time to prevent damage to the pump and clogging due to the entry of sand and other foreign particles.

Applications	Features
Fountains	Tried and trusted
Irrigation	Highly efficient
Pressure booster systems	Wide head and flow range with numerous models
Public, Industrial & Private water supply systems	Good sand resistance capacity, integral check valve
Air-conditioning equipments	Corrosion free parts for hygiene
Sprinkler systems and Mining	Low wear and tear
Farming	Perfectly & aesthetically designed and easily serviceable.
Water plants	
Laboratories	

The Company reserves the right to modify the technical specifications and illustrations without prior notice.

GENERAL DATA

Pumped Liquids

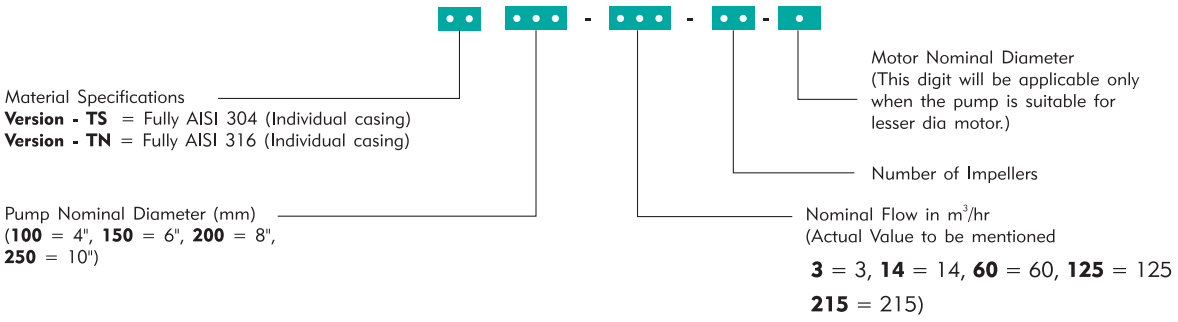
Non-aggressive, non explosive, Pure, cold, fresh water without abrasive particles having the following characteristics.

a) pH	6.5 to 8.5
b) Turbidity	50 ppm silica scale (max.)
c) Kinematic Viscosity	1mm^2/s (1cSt) (max.)
d) Hardness (Drinking Water)	300 (max.)
e) Specific gravity	1.004 (max.)
f) Allowable solids	100 ppm (max.)
g) Chlorine ion density	500 ppm (max.)
i) Permissible amount of sand	50 g/m^3 (max.)
h) Temperature (max)	NBR-35°C / Viton-50°C

Pump Operating Limitations - TS Series

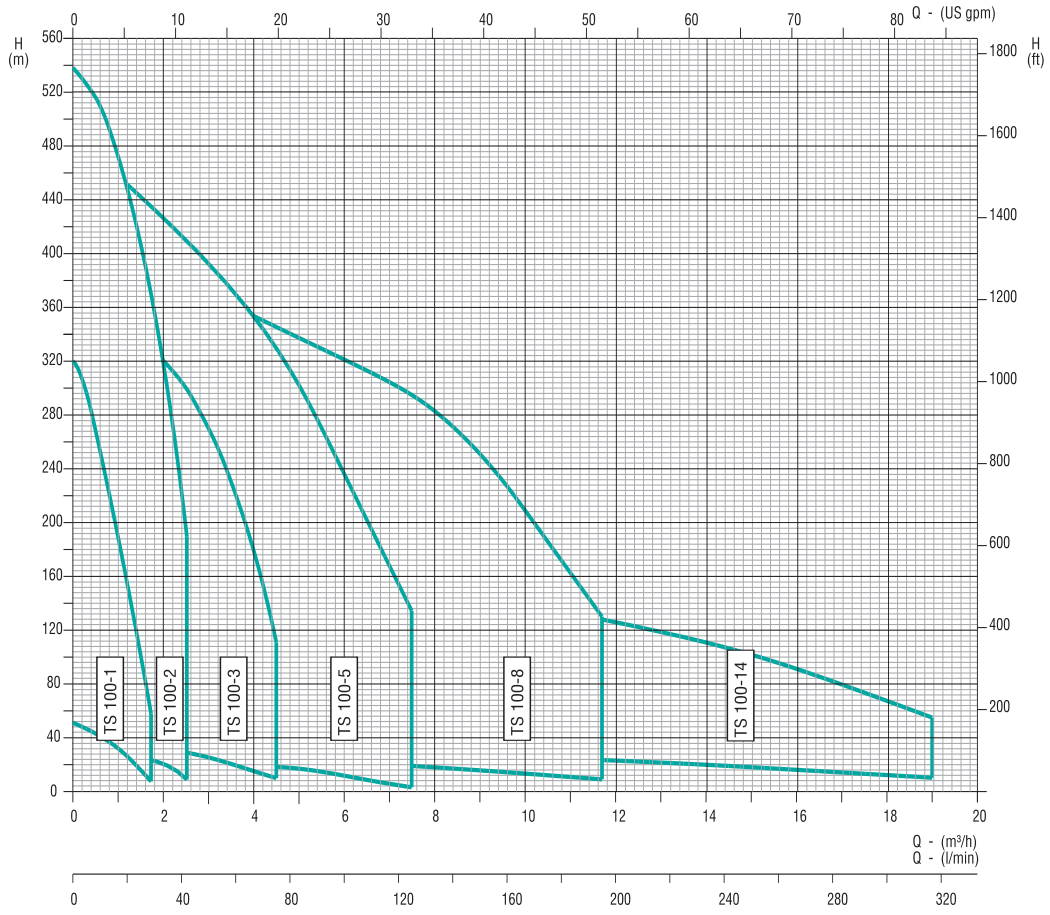
Nominal Diameter		4"	6"	8"	10"
Power Range		0.37kW - 11kW	0.55kW - 75kW	5.5kW - 130kW	9.3kW - 220kW
Speed		2900 rpm	2900 rpm	2900 rpm	2900 rpm
Discharge Range	lpm	7.2 - 317	116.4 - 2000	330 - 2100	300 - 4667
	m^3/h	0.4 - 19	7 - 120	20 - 126	18 - 280
Total Head Range	ft	13 - 1755	15 - 2788	26.24 - 1700	19.68 - 1600
	m	4 - 535	4.5 - 870	8 - 518	6 - 488
Delivery size in mm		32, 40 & 50	50, 65, 80 & 100	100 & 125	150
Max. Operating Pressure		5.4 Mpa (54 bar)	8.5 Mpa (85 bar)	5.2 Mpa (52 bar)	4.9 Mpa (49 bar)
Horizontal Installation		Minimum 30° angle			
Shaft Coupling		Splines	Splines	Splines	Keyway / Splines

Model Classification BOREHOLE SUBMERSIBLE PUMPS



GENERAL DATA

Quick Selection › TS Series › Version TS › 4"



Curve tolerance according to ISO 9906:2012, Grade 3B

Performance Curve Conditions

a.	The Performance curves show pump performance of the pump at rated speed and voltage. (2900 rpm)	e.	The head and discharge are inclusive of check valve and suction inter-connector losses at the actual speed.
b.	The measurements were made with airless water at 20°C. For pumping liquids with a density higher than that of water, motors with correspondingly higher outputs must be used.	f.	Efficiency curve: ("EFF%") shows pump stage efficiency.
		g.	Curve tolerance according to ISO : 9906, Annex-A.
c.	Pipe friction losses have not been included in the performance curves and performance data.	h.	The performance are at rated voltage and are only Indicative. Actual discharge depends on availability of water in well, based on strength of water source, height of water column, submergence of pump, etc.,
d.	The bold curves indicate the recommended performance range.	i.	The given performance are for a specific materials of construction of pumps.

Available types of materials of construction : TS (AISI - 304) and TN (AISI - 316). In case of M.I.C. version - TN the second digit of the pump model "S" will be replaced with "N". The given performance ranges are same for version - TS & TN.

TP / **TV** SERIES

GENERAL DATA

THERMOPLASTIC SUBMERSIBLE PUMPS › **TP** / **TV** SERIES

Construction Thermoplastic submersible pumps are ingeniously designed and developed employing latest engineering softwares, high-tech machinery, tools and cutting edge of pumping technology to deliver the best possible hydraulic efficiency. The integrated and most modern quality assurance systems used at every stage of the production and flawless workmanship ensure sustained and consistent operation.

All these submersible pumps are multistage single suction centrifugal type and provide with integral check-valve and NEMA standard coupling. These pumps are available with impeller & diffuser made up of corrosive resistant thermoplastic and the shaft is made of AISI 304. The integral check valve prevent back flow and reduces the risk of water hammer which paves the way for trouble free performance. The suction screen is designed with utmost care so as not to reduce the inflow of water and at the same time to prevent damage to the pump and clogging due to the entry of sand and other foreign particles.

Applications	**Features**
Public water supply	Tried and trusted
Fountains	Highly efficient
Irrigation	Wide head and flow range with numerous models
Pressure booster systems	Good sand resistance capacity, integral check valve
Industrial & Private water supply systems	Corrosion free parts for hygiene
Air-conditioning equipments	Low wear and tear
Sprinkler systems and Mining water plants	perfectly and aesthetically designed and easily
Farming	serviceable.
Water plants	
Laboratories	

The company reserves the right to modify the technical specifications and illustrations without prior notice.

GENERAL DATA

Pumped Liquids

Non-aggressive, non explosive, Pure, cold, Fresh water without abrasives particles having the following characteristics.

a) pH	6.5 to 8.5
b) Turbidity	50 ppm silica scale (max.)
c) Kinematic Viscosity	1mm²/S (1cSt) (max.)
d) Hardness (Drinking Water)	300 (max.)
e) Specific gravity	1.004 (max.)
f) Allowable solids	100 g/m³ (max.)
g) Chlorine ion density	500 ppm (max.)
h) Permissible amount of sand	50 g/m³ (max.)
I) Temperature	38°C (max.)

Pump Operating Limitations		**TP / TV Series**
Nominal Diameter		**4"**
Power Range		0.37 kW to 7.5 kW
Speed		2900 rpm
Flow Range	lpm	12 - 400
	m³/h	0.75 - 24
Max Recommended Head	ft	13 - 820
	m	4 - 250
Delivery size in mm		32, 40 & 50
Max. Operating Pressure		upto 2.5 Mpa (25 bar)
Horizontal Installation		35°C

Model Classification › BOREHOLE SUBMERSIBLE PUMPS

Material Specifications

TP = AISI 304 Casing (Tube), Plastic Diffuser, Plastic Impeller & other AISI 304

TV = AISI 304 Casing (Tube), Plastic Diffuser, Plastic Impeller, Plastic Suction Inter-connector & Plastic NRV

Pump Nominal Diameter (mm)
(**100** = 4")

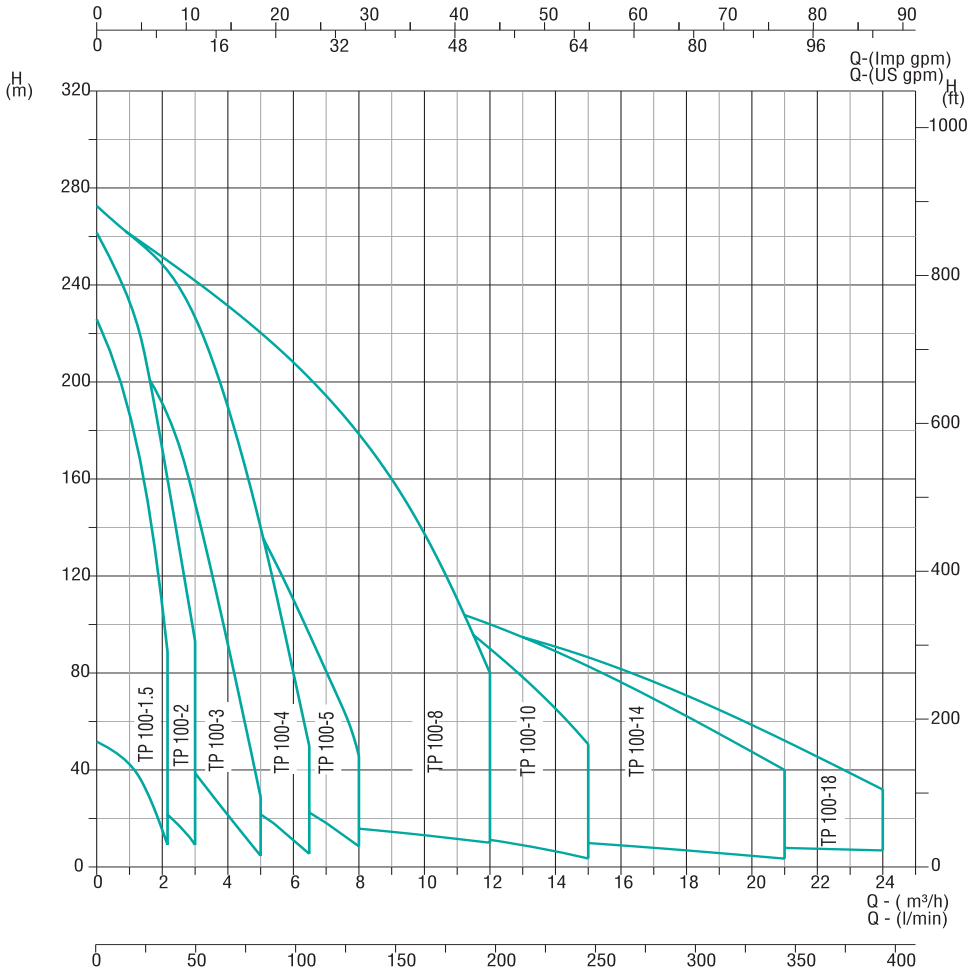
Nominal Flow in m³/hr
(Actual Value to be mentioned.
1 = 1, **2** = 2, **3** = 3, **14** = 14, **18** = 18)

Number of Impellers

Motor Nominal Diameter
(This digit will be applicable only when the pump is suitable for lesser dia motor.)

GENERAL DATA

Quick Selection › TP / TV Series › Version TP / TV › 4"



Curve tolerance according to ISO 9906:2012, Grade 3B

Performance Curve Conditions

a.	The Performance curves show pump performance of the pump at rated speed and voltage. (2900 rpm)	e.	The head and discharge are inclusive of check valve and suction inter-connector losses at the actual speed.
b.	The measurements were made with airless water at 20°C. For pumping liquids with a density higher than that of water, motors with correspondingly higher outputs must be used.	f.	Efficiency curve: ("EFF%") shows pump stage efficiency.
		g.	Curve tolerance according to ISO : 9906, Annex-A.
c.	Pipe friction losses have not been included in the performance curves and performance data.	h.	The performance are at rated voltage and are only Indicative. Actual discharge depends on availability of water in well, based on strength of water source, height of water column, submergence of pump, etc.,
d.	The bold curves indicate the recommended performance range.	i.	The given performance are for a specific materials of construction of pumps.

THE POWER BEHIND THE FORCE

Naargo Industries Private Limited, one of the leading manufacturers of latest state of art, large range of pumps and motors, is managed by veterans who are in the pump industry for almost half a century. The products are employed in various applications like irrigation, domestic, civil construction, de-watering etc; The Company has a strong distribution network in India for sales & service and a strong global presence.

Quality is the key factor in Naargo's products. The expansive infrastructure and environment accredited with ISO 9001 quality certification, latest engineering softwares, high-tech machinery, futuristic pumping technology and high caliber workforce facilitate the production of flawless and efficient products on par with international standards under the brand name of "Tormac". The well equipped R & D wing stays alive to the changing global trends and comes out with viable solutions for innovative product development and upgradation.

The Products currently available include Stainless Steel Submersible Pumps, 4" Thermoplastic Submersible Pumps, 6" & 8" Cast Iron Submersible Pumps, Submersible Motors and Controls, Centrifugal Pumps, Inline Booster Pumps, Jet Self-priming Pumps and Peripheral Pumps.

The power, performance and endurance of the products backed by the uncompromising teamwork and value systems will certainly propel the company's growth towards new horizons in the pump industry.
